EXPERIENCE

UI/UX Designer

Cisco System India Pvt Ltd

April 2022 – present | Bengaluru, India

- I'm a UI/UX Designer at Cisco, focused on improving user experiences for the 'Phoenix' internal web app a powerful analytics tool. I handle everything from initial ideas to polished designs, using HTML5, CSS3, and JavaScript. I collaborate with backend developers using Git for smooth teamwork. I ensure designs work well on all devices, and I'm committed to making them accessible to everyone. I also use web animations and follow Agile practices. I love solving problems and thinking critically to find the best solutions.

Software Engineer UI

Open Financial Technologies Pvt Ltd

January 2019 – April 2022 | Bengaluru, India

- Designed and developed the OpenMoney Web App, a dynamic platform that enables users to seamlessly connect their bank accounts to pay vendors, receive payments, and reconcile transactions effortlessly.
- Collaborated closely with UX designers to translate user requirements into functional and visually captivating user interfaces.
- Build UX design and developed the OpenHub Web App for online B2B marketplace, connecting buyers with suppliers.

UI Developer

Quess Corp Ltd (IBM India Pvt Ltd)

April 2018 – January 2019 | Bengaluru, India

- Led the UI development for the IBM Marketplace, an e-commerce platform facilitating the purchase and sale of new or refurbished laptops exclusively for IBM internal employees.
- Utilized Agile methodologies to lead sprint planning, daily stand-ups, and retrospectives, fostering a collaborative and iterative development environment.

EDUCATION

Master in Computer Application

Uttar Pradesh Technical University

2013 – 2016

PROJECTS

Phoenix - Advance Analytics Tools - Explore [🔗](#)

Role: UX Designer and Developer

April 2022 – present

Phoenix [🔗](#) is an in-house tool for the Advanced Analytics team. It was created by developers for developers, helping you follow a consistent method to build high-quality pipelines for data and modeling.
